This dictionary, based on the Chambers English-to-English *Students' Dictionary* but with Turkish explanations added by well-known dictionary writer Önder Renkliyıldırım, is an essential resource book for all elementary to intermediate students of English.

The many thousands of Turkish definitions, translated examples, usage notes and synonym / antonym boxes provide learners with all the information they need to understand what words mean and how they are used, while the example sentences can be used as models when students write sentences of their own.

The two-colour layout adds clarity, making it easier and quicker for the reader to locate the information he / she wants. Illustrations focus on differences between similar words (e.g. 'curly / wavy / frizzy hair') as well as showing varieties of musical instrument, parts of the body, animals, birds, etc.

A grammar reference section at the back of the dictionary summarises language points such as prepositions, conjunctions, tag questions, comparative and superlative, punctuation and spelling with the help of entertaining pictures and diagrams.

Syllabus based on Common European Framework

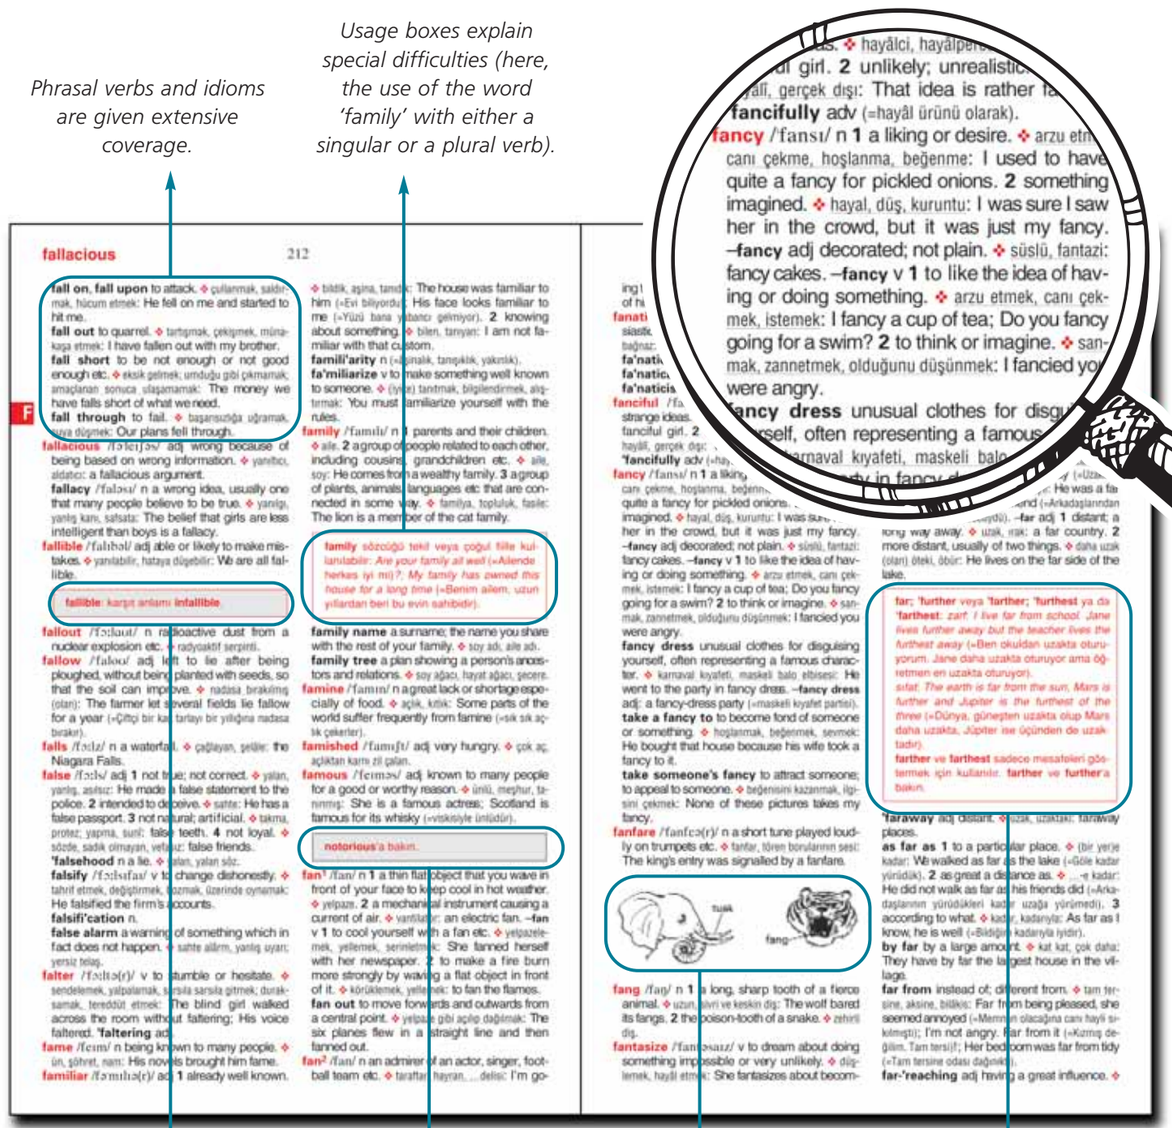
Example sentences show the structures most commonly used with each word and each meaning. Here, the examples show the following structures with 'fancy': 'have a fancy for sthg', 'it was just sb's fancy', 'fancy sthg', 'fancy doing sthg', 'fancy (that) sthg is true'.

Phrasal verbs and idioms are given extensive coverage.

Usage boxes explain special difficulties (here, the use of the word 'family' with either a singular or a plural verb).



Synonyms and antonyms are shown in shaded boxes.

References to words with similar meaning are also made in boxes.

Illustrations help the reader to understand differences that are difficult to explain in words.

Words that are irregular or difficult to use (e.g. 'far, further, furthest') are clearly explained in usage boxes, with examples.
